

BUTLER STERN INTERIORS

new jersey

Since 1999, Butler Stern Interiors' ultimate goal has been to elevate the representation of clients' lifestyles by enhancing the beauty and function of their surroundings. Led by partners Tracey Butler and Meryl Stern, ASID, the firm is recognized for its clean, modern mix of antiques with contemporary pieces, textural elements and tonal colors. The aesthetic qualities of their work evoke sophistication, order and purpose. Butler Stern turns a discriminating eye toward quality, function and well-edited rooms. Space planning is at the core of the design, and much of the firm's work is done in conjunction with architects to assure proper function and flow. The firm's blending of different styles and periods results in a comfortable familiarity that reflects the individual traits and interests of its clients. Although the firm dabbles in commercial projects, Butler Stern's heart is in residential design, allowing the designers to interact with people on a more intimate level and create the ideal home for each client. The firm's residential work extends throughout New Jersey, New York, Connecticut and Florida, and its offices occupy two locations in northern New Jersey.

Orange leather punches up the modern simplicity and geometric lines of this New Jersey great room.
